OSHA Docket
Docket No. H-122
Room N-2625
200 Constitution Ave. N.W.
Washington, DC 20210

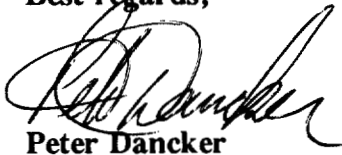

Dear OSHA Official:

This letter regards the proposed regulations dealing with smoking in the workplace. The proposed smoking regulations put an unreasonable burden on business owners.

I have been a business owner for a number of years and have 6 employees. Customer service is number one in our company. Regulations like this will definitely put a damper on our business.

If there is going to be a vote on this issue, I think that the businesses should have the vote, not OSHA or any other government agency. Please consider my needs and oppose these regulations.

Best regards,

Peter Dancker
